

Council Candidate Biography: Kendra Sindelman

What is your occupation?

Advertising Research Director

Which subdivision do you live in and how long have you lived there?

Auburn Hills

What other governmental service have you been involved in?

I interned for Senator James Jeffords (R) from Vermont when I was in college.

What is your educational background?

Bachelors from Syracuse University

What community activities are you/have you been involved in?

Over the last six years, I have been involved in our school. I spent four years on the Prairie Crossing School Accountability Committee (SAC), and I served as Chair for two years. I have also been an active classroom volunteer. I am a founding member of the Auburn Hills Social Committee and serve as the manager for my boy's competitive soccer team.

What are your hobbies?

If I am not running my kids around town, I am walking my dog or practicing yoga. I was a member of IThrive Yoga for five years before they closed.

What made you decide to run for Town Council?

I love Parker, it's why I moved here. As my children are getting older, I strive to make Parker a place they are proud to grow-up in. I also want to make it a place that they want to return to, and to ensure they can afford to do so. I've had six years to watch from the sidelines, engage with my neighbors, and realize that the Town Council's authority has become more and more consolidated while the community's input is not being considered.

What will your top priorities be if elected to Town Council?

My top priority, if elected, will be to re-evaluate the Master Plan. Adopted in 2012, the Master Plan is the framework used for development decisions. Over the last 8 years, the development has exceeded expectations and as the Town of Parker matures, it is important to constantly evaluate its rapidly changing landscape. I'd also push for enhancing community engagement, which includes increasing transparency and feedback opportunities with the town's residents.
